HOW TO INCORPORATE VIDEOCONFERENCING INTO YOUR ARBITRATION PRACTICE

6

STEP 1: IDENTIFY A VIDEO INTERFACE TO USE

- Zoom
- Go To Meeting
- WebEx
- FreeConferenceCall.com
- Skype/Skype For Business
- Government Facilities

NAA & FMCS: Videoconferencing for Arbitrators

7

4/2/20

7

STEP 2: IDENTIFY WHEN TO USE THE VIDEOCONFERENCING TOOL

- Travel Cost Reduction
- Scheduling Convenience
- Witness(es) Unavailable To Appear In Person
- Social Distancing

NAA & FMCS: Videoconferencing for Arbitrators

8

4/2/20

8

STEP 3: OBTAIN AGREEMENT FROM THE PARTIES

- Introduce the Idea as Part of Your Case Intake Process
- Suggest It as Part of Effective Case Management
- Be Ready if the Parties Request It

NAA & FMCS: Videoconferencing for Arbitrators

9

4/2/20

9

STEP 4: SET HEARING DATE AND COMMUNICATE CONNECTION INSTRUCTIONS

- Set Hearing Date
 - A best practice is to use the videoconference tool for scheduling calls
- Set up the videoconference
- Send notice to the parties with the instructions

SAMPLE NOTICE OF HEARING

Videoconference Hearing on December 13, 2020
 10:00 a.m. Central Time, 11:00 a.m. Eastern Time
 Union and Employer (Grievant Name and/or Case #)
 Meeting ID: 311 778 252

The video conference hearing is conducted via Zoom's web-based software that comes at no cost to the parties. The parties simply need to have a desktop or laptop computer with a webcam. All parties and witnesses may be in the same location or separate locations. The arbitrator will be able to see all attendees at the hearing, and the parties will be able to see the arbitrator.

Join from PC, Mac, Linux, iOS or Android: <https://zoom.us/j/311778252>

Click the link or copy/paste to your browser. The download/connection process should start automatically in a few seconds. Then click the download to join the hearing.

*It is recommended that you access the Zoom site 30-60 minutes before the hearing start time to ensure your organization does not have a firewall prohibiting access to the site. If it does, please contact your IT department and request the firewall be removed or adjusted.

If you have any problems, do not hesitate to contact my office.

SETTING EXPECTATIONS

- ▶ What we are not doing:
 - ▶ Reviewing how to sign up for Zoom
 - ▶ Reviewing how to install Zoom (or any other software)
 - ▶ Reviewing how to schedule a Zoom meeting

NAA & FMCS: Videoconferencing for Arbitrators

14

4/2/20

14

IS THIS CASE RIGHT FOR VIDEOCONFERENCING?

- ▶ What considerations affect the comfort level of the Parties and the Arbitrator with a video hearing?
 - ▶ Can the Arbitrator make determinations to resolve a credibility dispute?
 - ▶ Will the essential components of the proceedings be “awkward” or unwieldy?
 - ▶ Will the technology be reliable?
 - ▶ How will we create a record of the proceedings?
 - ▶ Inertia – (e.g., we have always done it this way, or will my client be unhappy with me for agreeing to a video hearing?)

NAA & FMCS: Videoconferencing for Arbitrators

15

4/2/20

15

IS THIS CASE RIGHT FOR VIDEOCONFERENCING?

- ▶ Consider the views and capabilities of the Parties and the Arbitrator’s assessment of his/her/their own capability in determining whether to proceed via videoconference
 - ▶ Are there unique issues that make an in-person hearing essential?
 - ▶ Are there deadlines that cannot be met with an in-person hearing?
 - ▶ Are there legal restrictions (e.g., an open meetings law)?
 - ▶ Are there contractual restrictions?

NAA & FMCS: Videoconferencing for Arbitrators

16

4/2/20

16

IS THIS CASE RIGHT FOR VIDEOCONFERENCING?

- ▶ Consider the views and capabilities of the Parties and the Arbitrator's assessment of his/her/their own capability in determining whether to proceed via videoconference
 - ▶ Can the Arbitrator, via videoconference in a given case, provide effective service and provide a fair and adequate hearing, consistent with our obligations under the Code of Professional Responsibility for Arbitrators of Labor-Management Disputes?

The decision to use videoconferencing is a compromise that may not be right for every case or every set of parties

NAA & FMCS: Videoconferencing for Arbitrators

17

EQUIPMENT – WHAT YOU MAY NEED

- ▶ What you need to hold a videoconference hearing:
 - ▶ A computer
 - ▶ A webcam (HD or better quality)
 - ▶ Set your camera at eye level
 - ▶ Choose a location that allows you to look at both your screen and the camera
 - ▶ A headset with a microphone (preferably wired), or a full-duplex speakerphone

NAA & FMCS: Videoconferencing for Arbitrators

18

4/2/20

18

EQUIPMENT – WHAT YOU MAY NEED

- ▶ What you need to hold a videoconference hearing:
 - ▶ You should be able to find a decent webcam and headset for less than \$200 total
 - ▶ Look at unbiased (or less biased) reviews, like thewirecutter.com, based on your individual needs and preferences
 - ▶ A reliable internet connection

EQUIPMENT – WHAT YOU MAY NEED

- ▶ What you need to hold a videoconference hearing:
 - ▶ A quiet space
 - ▶ Access to a videoconferencing platform
 - ▶ A quiet keyboard

EQUIPMENT – WHAT YOU MAY NEED

► Internet considerations

- An internet connection to your home or office of sufficient bandwidth (at least 1.5 Mbps upstream and downstream)
- A reliable connection within your office location from your internet service provider to your computer
- A wired connection is better

NAA & FMCS: Videoconferencing for Arbitrators

21

4/2/20

21

EQUIPMENT – WHAT YOU MAY NEED

► Consider how you will review exhibits

- On your main screen next to the videoconference and your notes?
- On a second monitor?
- On a tablet?
- In hard copy?

NAA & FMCS: Videoconferencing for Arbitrators

22

4/2/20

22

CONSIDERATIONS IN SETTING UP YOUR EQUIPMENT

- ▶ Think about lighting
 - ▶ Choose a well-lit space
 - ▶ If possible, keep light sources overhead and in front of you
- ▶ Camera placement
 - ▶ Position the camera so you are looking up to minimize the appearance of a double chin
 - ▶ Be able to look directly into the camera

NAA & FMCS: Videoconferencing for Arbitrators

23

4/2/20

23

CHOOSING A VIDEOCONFERENCING PLATFORM

- ▶ There are many videoconferencing services available with similar features
- ▶ What does the platform need to do?
 - ▶ Provide reliable audio and video connections
 - ▶ Provide control over who is in the hearing “room”
 - ▶ Allow the Arbitrator to have sidebars
 - ▶ Be accessible to all participants

NAA & FMCS: Videoconferencing for Arbitrators

24

4/2/2020

24

CHOOSING A VIDEOCONFERENCING PLATFORM

- ▶ Sometimes, the Parties may want – or need – to use a particular system or service provider
 - ▶ IT security/firewall issues (particularly for public and federal sector cases)
 - ▶ Preference and familiarity
 - ▶ Availability of dedicated IT support
- ▶ Be flexible, but do not be shy about asking for help or a tutorial if the Parties want you to use a particular system
 - ▶ Confirm that your home or office system is compatible (e.g., can your Mac run the necessary software?)

NAA & FMCS: Videoconferencing for Arbitrators

25

4/2/20

25

CHOOSING A VIDEOCONFERENCING PLATFORM

- ▶ If you do not believe that you can effectively preside using a particular platform chosen by the Parties, be upfront and explain why
 - ▶ Come back to the essential questions:
 - ▶ Can everyone see and hear each other when connected?
 - ▶ Can the Arbitrator exercise control over who is in the room?
 - ▶ Can the Arbitrator speak with just the advocates?
 - ▶ Can everyone access the system?

THE BASICS OF ZOOM

We are focusing on – but not endorsing – Zoom

► Zoom User Plans

- For most of us, Zoom’s “Pro” level will be enough
- It runs about \$15 per month

NAA & FMCS: Videoconferencing for Arbitrators

27

4/2/20

27

THE BASICS OF ZOOM

► The Zoom Environment

► Host

- If you are making arrangements for the meeting from your account, you are the Host
 - Co-Host/Assistant
- You will likely not be the Host if you are using a Party’s videoconference platform

► Rooms

- The Waiting Room
- The Meeting Room (for us, the Hearing Room)
- Breakout Rooms (like an empty caucus room)

NAA & FMCS: Videoconferencing for Arbitrators

29

THE BASICS OF ZOOM – SUGGESTED SETTINGS

► Suggested Settings for your Zoom account:

- Turn off host video and participant video at start
- Allow telephone and computer audio
- Turn on Waiting Room
- Turn on “Allow host to put attendee on hold”

31

THE BASICS OF ZOOM – KEY FEATURES

- There are lots of “cool” features on Zoom for meetings and webinars
 - Not all are appropriate for a hearing

NAA & FMCS: Videoconferencing for Arbitrators

32

4/2/20

32

THE BASICS OF ZOOM – KEY FEATURES

- ▶ Save Meeting Templates
- ▶ Review the Participant List
- ▶ The Mute Button
- ▶ Screen Sharing
- ▶ Gallery View vs. Speaker View
- ▶ Breakout Rooms
- ▶ Virtual Background
- ▶ Setting a Password

4/2/20

34

KEY FEATURES – SCREEN SHARING

NAA & FMCS: Videoconferencing for Arbitrators

35

4/2/20

35

KEY FEATURES – GALLERY VIEW

- ▶ Gallery View can be demanding for slower computers
 - ▶ Using Active Speaker View instead may be helpful
- ▶ Don't forget to look at your own camera

NAA & FMCS: Videoconferencing for Arbitrators

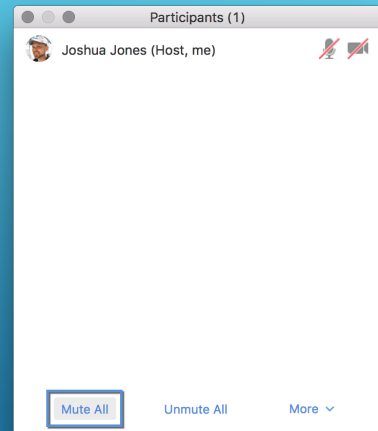

36

4/2/20

36

KEY FEATURES – PARTICIPANT LIST & MUTE BUTTONS

- ▶ The participant list tells you who is in the Meeting Room (Hearing Room) now
 - ▶ It does not include participants who have left
- ▶ You can mute one, some, or all participants
 - ▶ If you mute a participant or turn off their camera feed, they can still hear and see everyone else
- ▶ If you do not enable chat, a muted participant cannot communicate at all
 - ▶ Hand raise feature

37

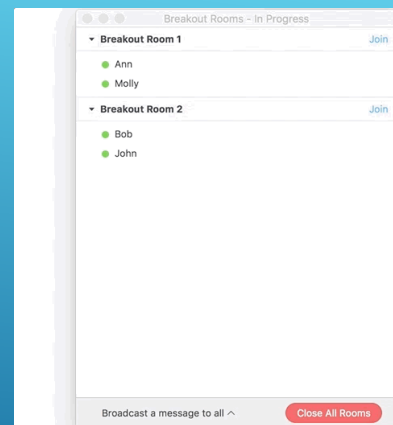

4/2/20

NAA & FMCS: Videoconferencing for Arbitrators

37

KEY FEATURES – BREAKOUT ROOMS

- ▶ You can create up to 50 breakout rooms
- ▶ These are separate meeting rooms that you, as the Host, can populate
 - ▶ Outside of Zoom, keep your own sign-in sheet to know and track who should (and should not) be grouped together

38

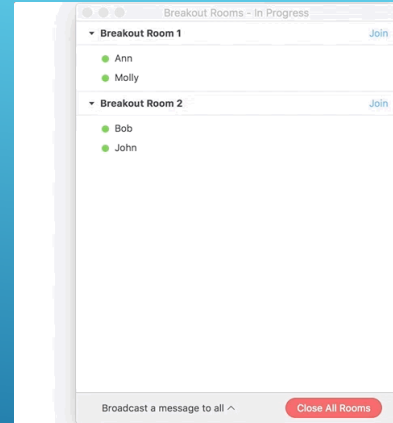

4/2/20

NAA & FMCS: Videoconferencing for Arbitrators

38

KEY FEATURES – BREAKOUT ROOMS

- ▶ Use breakout rooms to:
 - ▶ Have sidebars and hallway chats with the advocates
 - ▶ Sequester witnesses
 - ▶ Separate participants during breaks
 - ▶ Mediate, if appropriate
- ▶ Communicate to the participants how you are using the breakout rooms
 - ▶ Don't whisk participants away
- ▶ Utilize the broadcast feature

39

4/2/20

NAA & FMCS: Videoconferencing for Arbitrators

39

KEY FEATURES – VIRTUAL BACKGROUND

- ▶ Masking your actual background
 - ▶ Can use a green screen to improve effect
 - ▶ Can be choppy and distracting to others
 - ▶ Can strain a slower computer
- ▶ Regardless of whether you are using a virtual background, be aware of what (or who) is behind you

40

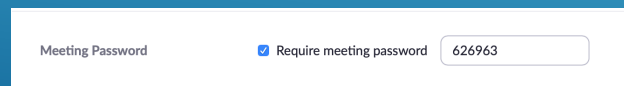

4/2/20

NAA & FMCS: Videoconferencing for Arbitrators

40

KEY FEATURES – SETTING A PASSWORD

- ▶ Why do you need a password when you have an access code?
 - ▶ Zoom bombing
- ▶ Another option – locking the meeting
 - ▶ Benefits and downsides
- ▶ Open/public meeting issues

Meeting Password ☒ Require meeting password 626963

NAA & FMCS: Videoconferencing for Arbitrators

41

4/2/20

41

BEFORE THE HEARING – CREATING A RECORD

- ▶ Discuss with the Parties when you schedule the videoconference hearing
- ▶ Options for Creating a Record
 - ▶ The Arbitrator's notes and recollection
 - ▶ Transcript
 - ▶ Consider including court reporting firm in discussions and test runs
 - ▶ Audio or visual recording features on videoconferencing platform

NAA & FMCS: Videoconferencing for Arbitrators

42

4/2/20

42

CREATING A RECORD USING ZOOM

- ▶ The Host controls whether a recording is made
- ▶ Recording Options on Zoom
 - ▶ Video
 - ▶ Audio
 - ▶ Automated Transcript
 - ▶ Zoom can perform automated transcription of meetings, but only on certain subscription plans that, currently, exceed \$199 per month

NAA & FMCS: Videoconferencing for Arbitrators

43

4/2/20

43

CREATING A RECORD USING ZOOM

- ▶ Types of recording storage on Zoom
 - ▶ Cloud Recording
 - ▶ Not available on local devices
 - ▶ Space may be limited, depending on plan
 - ▶ Local Recording
 - ▶ May be more difficult to distribute recording
 - ▶ The “camera” will follow anyone making a local recording, including into breakout rooms

NAA & FMCS: Videoconferencing for Arbitrators

44

4/2/20

44

CREATING A RECORD USING ZOOM

- ▶ Keep it simple
 - ▶ The goal is to emulate an in-person hearing
 - ▶ Be cautious about taking on responsibility for creating a record for the Parties
- ▶ Wiretapping law issues
 - ▶ Recording consent feature

NAA & FMCS: Videoconferencing for Arbitrators

45

4/2/20

45

BEFORE THE HEARING – A TEST RUN

- ▶ If anyone is not familiar with the videoconferencing platform, schedule an orientation for everyone to practice accessing the platform in the same way that they will on the hearing day
- ▶ Timing
 - ▶ Schedule the practice call for well in advance of the hearing date
 - ▶ Even for arbitrators comfortable with videoconferencing, there is likely to be a significant amount of handholding for advocates to whom this is new

NAA & FMCS: Videoconferencing for Arbitrators

46

4/2/20

46

BEFORE THE HEARING – A TEST RUN

► Including Witnesses in the Test Run

- Discuss with the Parties whether, at the hearing, witnesses will be with advocates or other Party representatives, or on their own
- Discuss with the advocates how they would like to make documents available to witnesses, particularly those participating from a different location than the advocates
- If needed, start the test run with everyone on a conference call and shift to the videoconference as participants successfully log on so that no one gets lost

NAA & FMCS: Videoconferencing for Arbitrators

47

4/2/20

47

BEFORE THE HEARING – EXHIBITS

- Consider having the Parties exchange Bates-stamped (pre-numbered) exhibits in advance without prejudice to arguments or objections as to admissibility or weight
- Consider how (and when) the exhibits will be exchanged
 - Can they fit in email, or will a file download tool be needed?
 - Will the Arbitrator be exchanging the documents between the Parties?
 - When?

NAA & FMCS: Videoconferencing for Arbitrators

48

4/2/20

48

BEFORE THE HEARING – EXHIBITS

- ▶ Consider permitting last-minute or rebuttal exhibits via email (or via file transfer on Zoom) on the day of the hearing
- ▶ Exhibits can be shown on Zoom via screen sharing
 - ▶ Have the Parties exchange new exhibits before putting them on the screen

DURING THE HEARING – PRACTICE POINTS

- ▶ Look at yourself (and your background) on camera before starting
- ▶ Make sure you have quiet and privacy
- ▶ Dress like you are at an in-person hearing
 - ▶ Don't be this guy →
- ▶ Ask participants to sign on 20 minutes early

DURING THE HEARING – PRACTICE POINTS

- ▶ Don't forget to make time for breaks
 - ▶ Consider putting participants in the waiting room or into separate breakout rooms during breaks
- ▶ Explain to the Parties what you are doing with the videoconferencing platform when you use it
 - ▶ Avoid surprises
- ▶ Something will go wrong; have a plan for how to respond

NAA & FMCS: Videoconferencing for Arbitrators

51

4/2/20

51

DURING THE HEARING – PRACTICE POINTS

- ▶ BE KIND
 - ▶ Keep in mind that participants may be working in an other-than-ideal environment and that a videoconference hearing may be a significant change in their usual practice

NAA & FMCS: Videoconferencing for Arbitrators

52

4/2/20

52

DURING THE HEARING – PRACTICE POINTS

- ▶ Be aware that others may be watching or recording the proceedings without your knowledge or permission
- ▶ You will have to develop rapport with others differently than you would in-person
 - ▶ Eye contact and attentiveness are important – look into the camera
 - ▶ There will be less body language that can be expressed or read (for you and for the Parties)

NAA & FMCS: Videoconferencing for Arbitrators

53

4/2/20

53

DURING THE HEARING – PRACTICE POINTS

- ▶ Lags in audio/speaking can matter
 - ▶ Can lead to inadvertent contentiousness
 - ▶ Slow technology or internet connections can exacerbate this issue
 - ▶ Consider acknowledging when this is happening to diffuse tensions
- ▶ Consider developing an explanation/introduction for remote witnesses about how the process will work and what to do if something goes wrong

NAA & FMCS: Videoconferencing for Arbitrators

54

4/2/20

54

DURING THE HEARING – WITNESS ISSUES

- ▶ A videoconference hearing requires, even more than in the in-person context, trust in the candor of witnesses
 - ▶ If there is reason to believe, based on past experience or the particular circumstances of a dispute, that a witness may not be truthful or candid, a videoconference hearing will pose unique challenges

55

DURING THE HEARING – WITNESS ISSUES

- ▶ Preliminary Questions for Witnesses
 - ▶ Ask the witness who, if anyone, is with them
 - ▶ Ask what materials are currently in front of the witness (electronically or otherwise)
 - ▶ Ask the witness to put any materials away until directed to review them
 - ▶ Ask the witness, when testifying, to wait a moment before answering
 - ▶ Direct the witness to stop answering if an objection is posed

56

DURING THE HEARING – WITNESS ISSUES

► Witness instructions

- The Arbitrator and advocates should have discussed in advance and be ready to answer the following questions for each witness before the witness's testimony begins:
 - How should the witness access the exhibits?
 - When should the witness access the exhibits?
 - Who should the witness contact if there is a technological problem?
 - What can and can't the witness do while actively testifying?
 - (e.g., no checking email or chatting even though using the computer)
 - What can and can't the witness do during a break?

NAA & FMCS: Videoconferencing for Arbitrators

57

4/2/20

57

DURING THE HEARING – WITNESS ISSUES

- Let witnesses know if the hearing is being recorded
- Where to put your witness during objections
- Where to put your witnesses during breaks
 - Waiting Room vs. Breakout Room
- Asking the Witness to “Step out” for Objections
 - Use the Participant List to briefly put the witness on hold

NAA & FMCS: Videoconferencing for Arbitrators

58

4/2/20

58

DURING THE HEARING – HANDLING UNRULY PARTIES

- ▶ Use a firmer or more direct approach in controlling discussions
- ▶ Ask the advocates to use the hand raise feature (on Zoom)
- ▶ Take a break
 - ▶ Send participants to the waiting room or to breakout rooms
 - ▶ Separate witnesses into breakout rooms, if appropriate
- ▶ Break Glass in Case of Emergency (more forceful measures)
 - ▶ Rather than shouting, if you cannot be heard, briefly mute all participants
 - ▶ Take a walk (move yourself to your own Breakout Room for a few minutes)

NAA & FMCS: Videoconferencing for Arbitrators

59

4/2/20

59

DURING THE HEARING – TECHNICAL ISSUES

- ▶ Give some thought about how to re-establish contact for all participants if there are technical issues
- ▶ The Arbitrator must have direct telephone numbers for the advocates
- ▶ At the end, use the “End Meeting” button

NAA & FMCS: Videoconferencing for Arbitrators

60

4/2/20

60

RECAP – CONSIDERATIONS

- ▶ What considerations affect the comfort level of the Parties and the Arbitrator with a video hearing?
- ▶ The essential questions for using a videoconferencing platform

NAA & FMCS: Videoconferencing for Arbitrators

61

4/2/20

61

RESOURCES

- ▶ Materials from videoconference platform provider
 - ▶ Find the “Help” section on the platform’s website
- ▶ Work with colleagues, family, and friends to practice before your videoconference hearing
 - ▶ You should not be trying anything out for the first time in front of the Parties
 - ▶ At least to start, keep things simple

NAA & FMCS: Videoconferencing for Arbitrators

62

4/2/20

62

CLOSING THOUGHTS

- ▶ This is not an easy way to conduct a hearing, and most parties and arbitrators would rather meet in person
- ▶ Something is likely to go wrong
 - ▶ Arrange with the advocates – ahead of time – to have a backup plan
 - ▶ Keep a cool head and a sense of humor, and work with the Parties to get through it

NAA & FMCS: Videoconferencing for Arbitrators

63

4/2/20

63

CLOSING THOUGHTS

- ▶ This is a challenge; an adventure; and client service in the best sense
- ▶ The Parties are still looking for what you have always provided them
 - a fair, efficient, well-run hearing and your good judgment

NAA & FMCS: Videoconferencing for Arbitrators

64
